SUPPLEMENTARY INFORMATION:

I. Background

The Project Progress Report (PPR) was designed to assure that National Service Senior Corps (NSSC) grantees address and fulfill legislated program purposes, meet agency program management and grant requirements, and assess progress toward work plan objectives agreed-upon in the granting of the award. Information is used by agency project managers to determine that projects are achieving goals and objectives, identify technical assistance needed to correct deficiencies, manage budget variances and resource issues arising in grants, track trends requiring changes in program policies and procedures, and establish priorities for project monitoring activities. Established NSSC grantees submit PPRs twice annually to

their agency project manager. First-year projects, new components, demonstrations, and projects experiencing problems or with substantial project revisions report quarterly, as identified in the Notice of Grant Award agreed to and signed by the sponsor/grantee.

II. Current Action

The Corporation for National and Community Service seeks to revise the current PPR in order to reflect or mirror changes made in the revised National Service Senior Corps Grant Application which received OMB approval in mid-December 1997. All NSSC grantees with a start date of July 1, 1998 will be required to use the new Grant Application. We anticipate making available to all NSSC grantees, an OMB approved revised PPR by July of 1998.

The revised PPR will be used by NSSC grantees to report progress toward accomplishing work plan goals and objectives, achieving Government Performance and Results Act (GPRA) goals, meeting challenges encountered, describing significant activities, and requesting technical assistance.

Information gathered from PPRs will allow agency project managers to determine that projects are achieving goals and objectives outlined in the Grant Application, compile GPRA data, assess and monitor programmatic challenges and significant activities, identify technical assistance needs, and assure compliance with legislative requirements, policies, procedures, and grant conditions.
